To convert from a probability to odds,

divide the probability by one minus that probability. So if

the probability is 10% or 0.10 , then the odds are 0.1/0.9 or #39;1 to 9#39;

or 0.111. To convert from odds to a probability, divide the odds by one plus the

odds.

What is the difference between odds and probability? - FAQ 1466
