Poki is one of the most popular sites with free online games where

children can choose what kind of games they want to play from the different categories

that our friends have. One of the most important things that Poki has is that players

can access games from their mobile, tablet, or even computer, and in this way, each

player can continue their mission regardless of the device they use.

Call of Duty 3 was made by Treyarch, but they were already pressured with the release of Call of Duty 2: Big Red One.

Therefore Treyarch had a shorter amount of time to make a game for next gen consoles at the time. Because of this, they had to scrap the PC

version.

Will Call of Duty 3 ever make it to PC/Steam?
