

# O O bet365

Each Minesweeper game starts out with a grid of unmarked Squares. After clicking one of these squares, some of the squares will disappear, and some will remain blank; and some squares will have numbers on them. It's your job to use the numbers for a figure out which squares are safe that you can click on without getting hit by a mine. The game ends when you either uncover a mine or uncover all the squares that are not mines.
