For example, in a basketball game the over/under total may be set at 200.5 points. If you bet on the over, you are betting that the combined score of both teams will be 201 or more points. If you bet on the under, it is believed that the combined score will be 200 or fewer points. This is a bet on the total score of the game, not on the individual players or teams. A bet on the over is a bet that the total score will be 201 or more points. A bet on the under is a bet that the total score will be 200 or fewer points. This is a bet on the total score of the game, not on the individual players or teams. A bet on the over is a bet that the total score will be 201 or more points. A bet on the under is a bet that the total score will be 200 or fewer points. This is a bet on the total score of the game, not on the individual players or teams.

with such fire as just as traumatizing! Shell shocker cases - O National
