& It has been a long time since we last posted on the  
blog so there is a lot to get through so settle in!  
& Today s big news is that we can finally tell you what we are doing to k  
eep our flash games alive past the end of this year when flash will be removed f  
rom popular browsers.  
& We have behind the scenes been working with the super talented guys at  
Poki (<https://poki/>) to make our games playable in HTML5! This means they will r  
emain playable in browsers the way they were designed to be played!  
& The first game is Bad Ice Cream which you can play TODAY by navigating  
to our brand new HTML5 section: [nitrome/html5-games](http://nitrome.com/html5-games). More games will be followin  
g starting with the Bad Ice Cream sequels over the next two weeks and when we#  
9;re done, we hope to have the entire flash catalogue of 130+ games playable in  
HTML5!  
& Time to talk a little more about the HTML5 versions. They are not ports  
! The games are running off the exact code of the original games pulled directly  
from the original flash files. What the wizards making this happen have made is  
more comparable to an emulator fa Nitrome emulator feek! Being an emulator of sor  
ts some people may see performance differences to these versions but the code is  
highly optimised and will improve even further as the team continue to work on  
it.  
& ing, secure, e efficient. Despite challenges and sig
