

O O bet365

Although some patients notice results almost immediately after treatment, improvements typically show in approximately 2-3 weeks. Optimal results are achieved in 3-4 months. O-Shot treatment results can potentially last up to three years, but many women choose to have an 18-month follow-up or maintenance treatment.

How Long Does it Take for the O-Shot to Kick in?

Many patients experience noticeable improvements within the first three weeks following treatment, but the full regrowth of tissue is not complete until approximately three months after the injection. On average, the O-Shot lasts about 12-18 months.
