Para calcular o Rollover, siga os seguintes passos:

1.

Liste todos os encargos e débitos financeiros previstos para o período desejado. Esses itens podem incluir, por exemplo, pagamentos de fornecedores, juros, impostos, aluguel, salários, investimentos e outros compromissos financeiros.

2. Determine o valor líquido disponível para atender a essas obrigações. Esse valor pode ser obtido através de receitas, empréstimos ou outras fontes de financiamento.

3. Ordene os itens listados no passo 1 pela data de vencimento, começando pelo mais próximo.

4. Comece a atender as obrigações, uma a uma, a partir do valor líquido disponível (passo 2). Desconte o valor de cada obrigação atendida do valor líquido disponível.
