<p></p><p>So, I got a soft blob-like thing, and I was tossing
with it in a prototype for a very long #129776; time. It turned out that it s
tough to invent something new. Finally, I got an idea of a fat cat #129776; th
at likes to blow balloons. The name of the game is Puffy Cat, and I ll be glad i
f you play #129776; it on Poki!</p>

<p>The final version of the game has 150 levels, 26 hats, 18 balloon skins
, 225 sprites, 35 sound #129776; fx, and plenty of fun! And we agreed with the
publisher to make two more games in the Puffy Cat #129776; series with new ga
me mechanics and content.</p>

<p>What I like the most about Defold is that:</p>
<p>I use Defold IDE to make #129776; levels, i.e. I have quite a few pre
-made game objects to construct a level. Every level is a collection with #1297
76; references to these game objects. All these levels linked to the parent col
lection as Defold s collection factories. It s an easy #129776; way to make le
vels without any external editors like Tiled etc.</p>
