Some trading bots may generate small but

consistent profits, while others may have larger gains but also experience periods

of losses. It's difficult to determine an exact amount that

trading bots make, as their performance can vary greatly.

Profitable trading bots exist, and are profitable because the creator knows

the cause and effect. For example, patterns will show that ice is more

likely to melt during daytime than nighttime. Deciding if ice will melt requires

that you know what temperature it melts at.
